In order to make your quest for a law firm job easier, LawSikho, a top education platform in India, is offering a 3-day free online bootcamp on how to get hired by a law firm (8-10 January, 6-9 pm IST).

The advertisement features a dark blue background with a large red arrow pointing upwards. On the left, the LawSikho logo is visible, along with the text 'Backs to Crack Law Firm Job'. A red circular badge with the word 'FREE' is prominently displayed. The main text reads '3-Day Free and Online Bootcamp on How to get a LAW FIRM JOB'. Below this, the dates '8 - 10 JANUARY, 2022' and the time '06 PM - 09 PM IST' are listed. Two small portraits of the speakers, Ramandeep Mukherjee and Akshay Arora, are shown, along with their titles: CEO & Co-Founder of LawSikho. The bottom of the ad repeats the introductory sentence: 'In order to make your quest for a law firm job easier, LawSikho,'.

- 17 recent law grads were once selected for interviews by one of the top seven law firms in India.
- It was a fierce competition among the applicants because they were only intending to hire two of them.
- A LawSikho student was one of the seventeen. She stated in her interview that FDI and investment law are her favorite areas of the law.
- Since law schools do not adequately teach such subjects, recruiters do not anticipate hearing such from students. They thus questioned her about her knowledge of it.

- She had a great time responding to that query. She shared with them all of her knowledge of investment law, which she had acquired while attending LawSikho.
- With the assurance that she had been hired, the recent law graduate left the interview room and descended six flights of stairs.

She was one of the two individuals that ultimately received a job offer.

You must focus your resume on the one subject of law that truly interests you if you want to get a job at a law firm.

You must be sufficiently knowledgeable about the topic, and if a partner at a legal firm starts discussing it with you, they will be impressed by your depth of understanding. It has been repeatedly demonstrated that this is the simplest method for passing a law firm interview.

You need to be familiar with the standard law school material, but you also need to know a lot more about the selected field. You must understand the practical legal issues that attorneys encounter while interacting with clients in the real world. You learn as much as you can about this subject.

You must establish a reputation in that field and provide verifiable proof on your resume

- The topic must be something that law firms are well-known for, not just any random field of the law.
- Are you curious in the other specialized legal fields that law firms favor the most?
- Would you like to know what subjects are most frequently discussed by applicants who pass law firm interviews?
- Do you want to establish a reputation that will help you get a job at a legal firm?
